

CHYTEN PROVIDES A FULL RANGE OF PREMIUM-LEVEL ACADEMIC SERVICES FOR ACADEMIC SUCCESS

Dear Parent,

I would like to take a moment of your time to introduce you to Chyten Educational Services and our new location in Johns Creek. Chyten Educational Services is the nation's foremost full-service, premium-level educational services provider.

When your child needs tutoring, assistance with a difficult class, help to ace high-stakes exams, help to improve reading and study skills, or college counseling, where will you turn? You could check websites or ask friends, but those sources can be unpredictable – or just wrong! Now there is no more guesswork in choosing an educational services provider. Chyten Educational Services provides professional solutions to your child's supplemental educational needs. Your school and Chyten are the only educational sources you and your family will ever need.

A phone call to Chyten gets your child a master's degree or above tutor, a skilled college counselor, an academic advisor, a test-preparation specialist, a reading and study skills expert and more. No waiting, worrying, wondering. At Chyten you and your child don't just get a tutor, you get a team of highly skilled, highly trained professional educators and consultants who can turn academic dreams into reality. We have the curriculum, the strategies, the experience, and the expertise your child needs to meet and exceed expectation.

It gets better:

- Chyten requires no long-term contracts or commitments.
- Chyten provides real tutor matching based on learning styles and personalities rather than on our convenience. Then, we stand behind our selection with a tutor match guarantee.
- Chyten's ParentNET software keeps you involved in the process three ways: 1) Parents provide personal assessments that go directly to the tutor. 2) Chyten's tutors provide detailed tutor notes following every class or tutoring session. 3) Parents correspond directly with the tutor on an ongoing basis.
- Chyten offers three Magnostic Tests (SAT Magnostic, ACT Magnostic, and ACT vs. SAT Comparison Test Magnostic) to obtain a better understanding of where students need academic assistance.

With the highest standards in the country, our teachers must pass extensive background checks and a screening process that assures you that your child gets a great individual to help him/her achieve educational excellence. To get started or to learn more about Chyten, call us and get your child started on the path to academic success immediately!

Cordially,

Cyril (Don) Wardle
